

## Beauty Chats - By Edna Kent Forbes

## Those Dreamy Eyes.

THE girl who is the possessor of dreamy eyes has been praised by poets and artists from the very beginning of time.

I do not wonder that so many, then, write to me and ask how to obtain this special mark of beauty. And what can I say? Is it possible to put dreams into the mind of the unsleeping? Isn't it likely that the dreamy type of girl will have dreamy eyes?

I should like to think so, and it is indeed the logical thing to think. But the trouble is that it isn't so. For I have known girls of the dreamy sort whose eyes never suggested it at all and I have known girls whose eyes seemed full of dreams—and it was only a cloak for mental blankness. I am inclined to think that anyone possessing fair, steady eyes and long lashes can be an "dreamy" in appearance as she desires.

You'll notice I said fair, steady eyes. Small eyes are bright, quick or shrewd, but never dreamy. Small eyes can be very pretty—quite attractive as large ones in fact. But if you want dreamy eyes—I think probably you can have them! That girl in the picture has not dreamy eyes—but she looks as though she had. That's because she has lifted back her head and shadowed her eyes by the natural drooping of the eyelashes.

The eyelashes, of course, can be cultivated as artistically as the hair of the head, if only you have the patience to do it. Whether you have dreamy eyes or not, it's an excellent

idea to stimulate the growth of the lashes; it helps beautify the eyes.

Anonymous—I don't know anything about rubber garments for reducing. I've had letters from people who have tried them and say they are no good. So there it is. They sound very uncomfortable to me. I should say

yes.

## HOROSCOPE

SATURDAY, JULY 10, 1926.

URANUS and Saturn are in benefic aspect today, according to astrologer, Mercury and Neptune are adverse.

It is a government under which much can be accomplished because the mind will be alert and able to profit by past experiences. There should be good luck for farmers and all who depend on the earth for their livelihoods. The best possible direction of the stars. The aged should improve this day's opportunities since the influences are most promising, making for an access of energy and distinguished recognition.

Psychic investigations again come under a way making for increased knowledge. Great teachers will come to the earth, the stars declare. Some sort of bad news from across the ocean seems to be indicated. This is not an auspicious date for beginning a journey of any sort; especially will the sea be unfavorable. Shipwrecks, with loss of life as well as property, are foretold. In one of these a famous man will end his career.

That it requires much less self-sacrifice, and that it was infinitely more comfortable, to go without certain foods than to encase one's body in a rubber sheath. But this is all a matter of choice. If you don't mind wearing a rubber covering, and you find it impossible to resist pastries and meals, then deprive you who find it easier to reduce by this rubber garment method.

signing contracts or important papers of any sort. The United States is to receive a supreme honor from the allies. The stars foretell that a stream of money will pour out for the inhabitants of Europe and the near east. The new moon of next week forecasts labor troubles that may become serious. Educational affairs will continue to be unsatisfactory all through the autumn and early winter. Persons whose birthdate it is may have a quiet year, which is nevertheless prosperous and advantageous. Temptations to dangerous flirtations should be avoided. Children born on this day probably will be healthy, persevering and determined. In business these children of Cancer often have a hard time at first, but they later succeed—Copyright, 1926, by the McClure Newspaper Syndicate.

32 FOREST FIRES BURNING IN NORTHERN CALIFORNIA

The Bluff, Calif., July 3.—Thirty-two separate fires are sweeping through national forests in northern California but only two are threatening any widespread destruction.

R. F. Hammatt, assistant United States district forester, announced here today. One is at the head of a canyon, near the summit of the Shasta mountains, which is an inaccessible portion of the Klamath forest. There are no trails to the fire area and it has been found impossible so far to send fire fighting crews to combat the flames. Another is three miles east of Carmel in the
